建築學系碩士班考試試題

ENGLISH

—作答注意事項—

- Timing of Test: 90 minutes
- Components of Test: There are five questions, in two tasks: 1, Writing (count 30 points) and 2, Multiple choices (90 points). Full score is 100 points.
- Requirements: Use only black or blue pen and write answers on the answer sheet provided by the faculty/staff. Candidates shall not use dictionary or any other form of assistance and tools during the test.

祝考試順利

© Test A, Writing (30%). Use no more than 500 words on the following subjects.

1. Please state the topics that you are going to research in your time of master studies, and explain your reasons (20%).

2. The drawing showing above is the section of the Yangmei Couch Station, designed by Tsai, Puo-Fuon (1985). Please state which floor is the floor indicated by the arrow (10%).

© Test B, Multiple choice (90%). Choose one correct letter A, B, C, D, or E from the five choices in each question.

3. It is also the Yangmei Couch Station designed by Tsai, Puo-Fuon. The above drawing is a drawing showing the (A) plunk; (B) plank; (C) plan; (D) plain; (E) plane of the project.

4. The above drawing is the (A) erection; (B) eleven; (C) elevation; (D) election; (E) electricity of the Yangmei Couch Station.
5. An art of drawing solid objects on a two-dimensional surface so as to give the right impression of their height, width, depth, and position in relation to each other when viewed from a particular point. That form of drawing is (A) prescription; (B) preparation; (C) perspective; (D) preplan; (E) preposition.
